FORBES-HEWLETT
Transport, Inc.

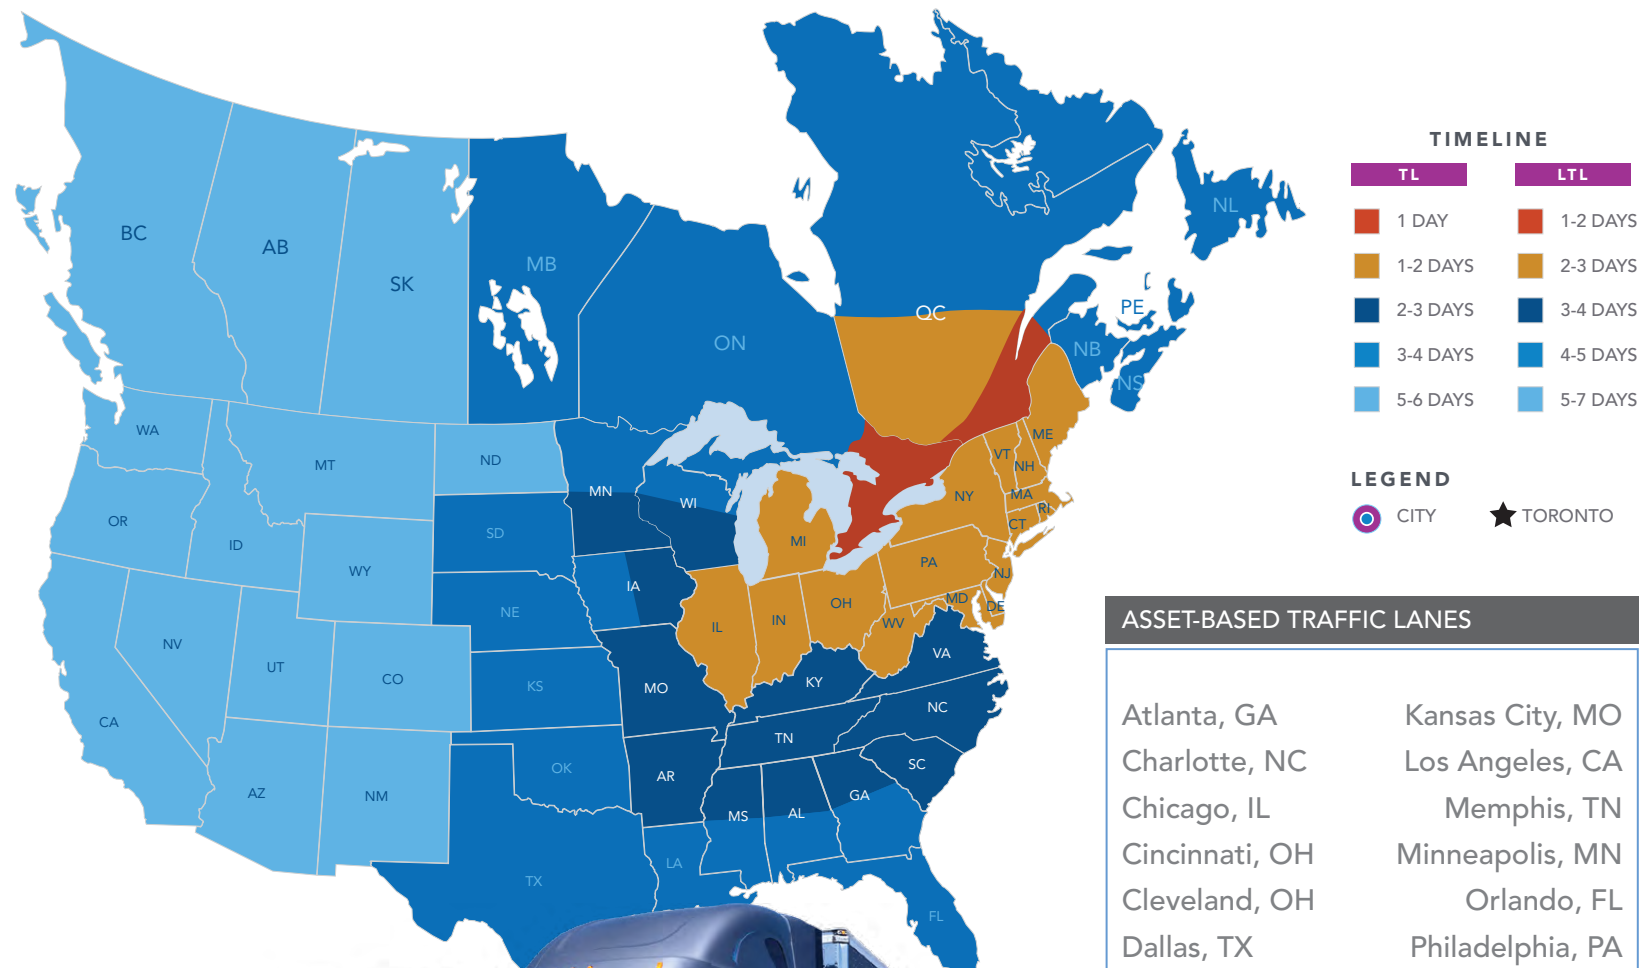

OUR FIRST-RATE NETWORK OF PARTNER CARRIERS MAKES NORTH AMERICAN COVERAGE AND CAPACITY POSSIBLE

Our logistics division provides extensive North American coverage and access to specific equipment types including dry vans, reefers and flatbeds. We're positioned to act as an added resource, a professional addition to your internal supply chain management team.

Providing coverage throughout North America for LTL and Truckload shipments, we'll keep you informed about the status of your shipment through our network – from origin to final destination.

"The Canada / USA map shown gives you a good idea of transit times between our head office in the Greater Toronto Area (GTA) and other North American points. We serve the 700 mile radius of the GTA with our own fleet resources (and select cities as far south as Atlanta, GA) and rely on our logistics division to manage both LTL and Truckload commodities beyond that. Our hybrid approach gives our clients the capacity and coverage they need, regardless of the destination."

OUR OUTSOURCE MODEL EXTENDS TO OTHER ASPECTS OF YOUR OPERATION

We do more than manage your freight at Forbes-Hewlett. We can also act as your outsource for dedicated services like yard shunting within the Greater Toronto Area.

Because of the highly specialized nature of shunting service, it can be difficult to find the right people for the job – that's where we come in. Forbes-Hewlett Transport provides you with flexible shunting solutions. We keep your costs and efficiency top-of-mind and provide a turnkey solution that alleviates you completely from the day-to-day management of this activity. Human resources, injury, sickness, safety-concerns, equipment maintenance, proper training... leave it to us.

WE'RE ALWAYS ON THE MOVE – WITHIN THE GTA AND BEYOND!

Our specialty lies in cross-border shipping, but we can easily handle your local cartage and P&D requirements, too! Our head office and main terminal is strategically located in Brampton, close to all major highways for convenient access to all points

within the GTA. Our fleet encompasses everything needed including select trailers with tail-gate delivery capabilities.

We're committed to quick and safe delivery and total customer satisfaction, from the largest, most complex cross-border shipments to the smallest, most straightforward local P&Ds.
